PREFACE

This body of work has taken 40 years of record searching in courthouses, interviews with living relatives, cemetery hunting from all over Missouri, microfilm reading of census records, deeds and most important of all...libraries from the local town library to the National Archives.

I have had help from many researchers sharing their research over the years with the intent that one-day, I would be able to compile and share what was found with others seeking their family histories.

Please make copies of this file for future preservation. I am the only one who knows how to create a book of this caliber.

LAYOUT

There are several sections in this book.

[1] 10 pedigree pages of Anita's direct line ancestors comprising of 12 generations.

[2] Beginning with Anita followed by each progenitor until completed.

[3] Each direct line ancestor has basic information followed by notes comprised of very important source documentation.

[4] Each direct line progenitor has spousal information including children and their spouses. If further information is wanted concerning allied families, please contact the author.

[5] Names highlighted in **green** are the author's direct line ancestors. Names highlighted in **blue** are ancestors, which we share in common.

[6] The end of the book has the author's pedigree showing his relationship to the common ancestors. Also, there is a short biography of the author explaining his interest in family history research.

I hope you will share this book with others in your family and it will become a family treasure.

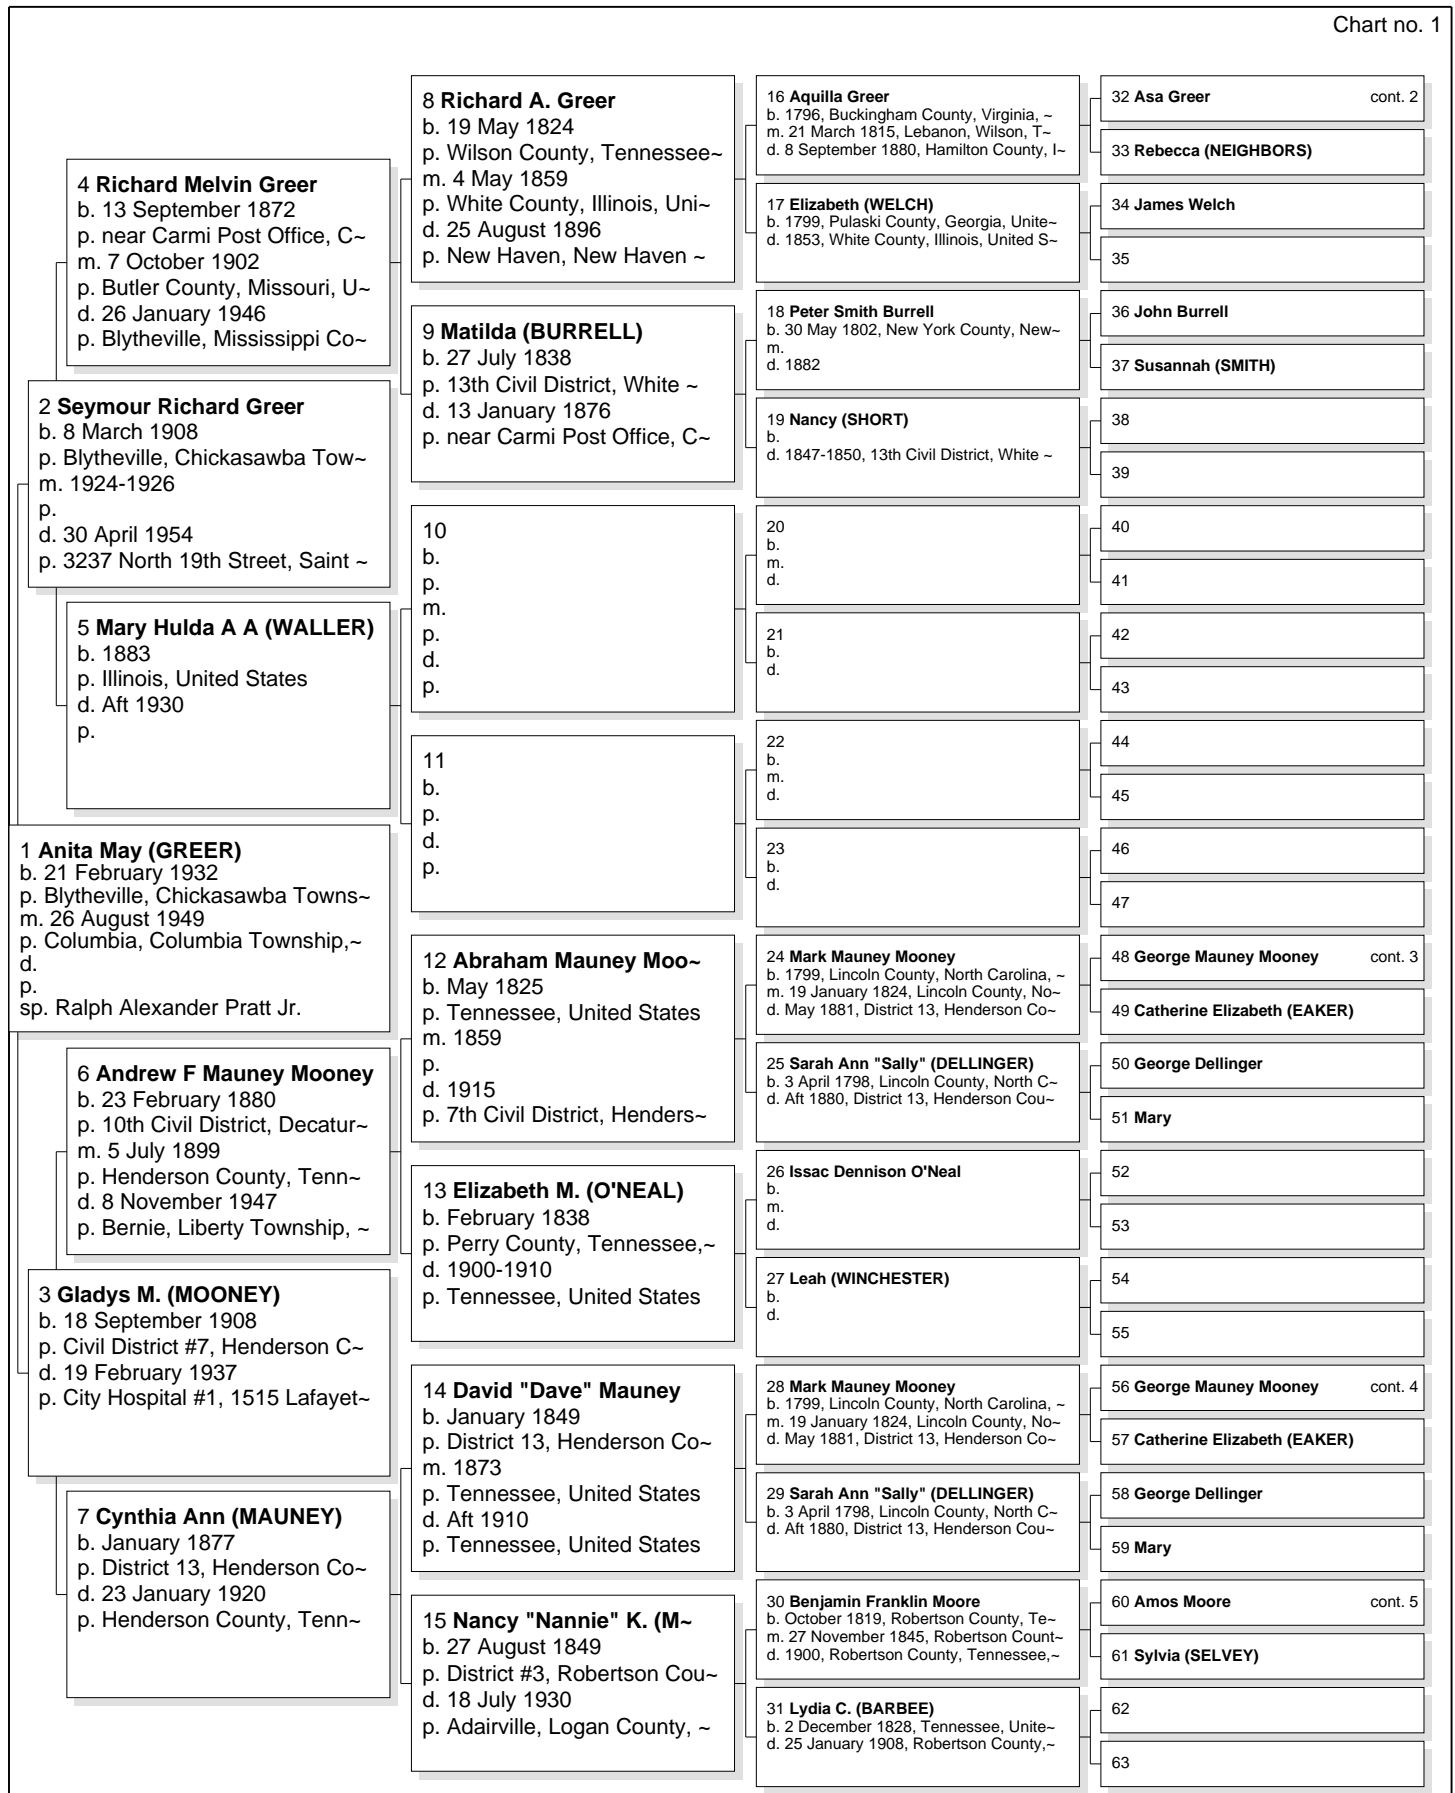

Any questions you may have concerning information in this book can be asked of the author either at his home address: Floyd Pratt, 15434 East Ford Circle, apt A-1, Aurora, Colorado 80017 or by phone 941.758.9273 or by email floydpratt59@gmail.com

It is and always has been my desire to share what I have found with others so they may use our research as a springboard to launch their family histories. Only through knowing our ancestors...can we know ourselves.

This person probably was found in a family bible. Since Ella is not in the 1850 census then she probably died before the 19 November 1850 census date.

1850 Childbirth of son; Jasper Greer

Jasper Greer was born in District 13, White, Illinois, United States in August 1850.

[In the 19th of November 1850 census, Jasper is listed as 3 months old. This calculates his birthdate at about August 1850 and since they were living in District 13, White, Illinois, United States this fixes his birth location.] \ul

Mary Malinda (**HOSKINS**) Greer died in District 13, White, Illinois, United States after

Ancestors of Anita May (GREER)

August 1850, the birth of son; Jasper and the 19 November 1850 census date where husband is with children.

In the 1850 census, widower Richard Greer is living in District 13, White, Illinois, United States, page 364a, 19 November 1850, line 32, house 1408, family 1408 with his children William w m 5; Marion w m 3; Jasper w m 3mos. Calculating Jasper's 3 months puts his birth in August 1850. Therefore, his mother; Mary Malinda had to be alive for the birth. Since the census date was in November 1850 and she is not with the family, then she died between August 1850 and November 1850.

Living next door to Richard and family is Colman Age 49 and Lucretia age 32 Hoskins family. Colman was born in Kentucky. I believe that Colman is Mary Malinda (**HOSKINS**) father, but I don't think Lucretia is her mother. At the time of Mary's death, according to internet sources, born in 1828 which would make Mary age 22 in 1850. Lucretia is 32 in the 1850 census that means she would have been 10 when she had Mary. Therefore, Mary's mother was probably Colman's first wife. [Update see Robert Coleman Hoskins family.]

1859 Childbirth of daughter; Elizabeth (GREER)

Elizabeth (**GREER**) was born near Carmi Post Office, Township 6 S Range 9 E, White, Illinois, United States in November 1859. This child presents a problem as to who she belongs to...was she Cordelia's child or Matilda's child? According to internet sources, Cordelia died in 1859 the same year that Elizabeth was born. The 26 July 1860 census says Elizabeth (**GREER**) was 8 months old, this calculates out to her birth being in November 1859. However, her father had married Matilda (**BURRELL**) on 4 May 1859. That means that Cordelia had already died before 4 May 1859 so she could not have been giving birth to Elizabeth in November. If Matilda is the mother of Elizabeth then Elizabeth had to have been conceived in March of 1859, nine months before her birth. This means that Cordelia had probably died before March 1859 when her husband started dating her sister, Matilda. Therefore, Elizabeth is Matilda's daughter.

1847 Childbirth of brother; John Burrell

John Burrell was born in 13th Civil District, White, Illinois, United States in 1847.

1847-1850 Death of mother; Nancy (SHORT) Burrell

Nancy (SHORT) Burrell died in 13th Civil District, White, Illinois, United States after the birth of son; John in 1847 and before 24 March 1850 husband's marriage. Checking the death certificates for her children might verify the name.

[Not being able to determine the age of Nancy (SHORT) Burrell presents a problem. Looking at the 1840 census we find two females age 15-19 and age 50-59. I dismiss the female 15-19 because daughter; Cordelia was supposedly born in 1830 making her 10 years of age and her mother would not be 5-9 years old when Cordelia was born. However, since Peter was age 38 having a wife 50-59 would have been out of line.

Also, what distrubs me in the 1840 census, there is no room for daughter; Matilda (BURRELL) supposedly born in 1838 according to the 1850 census. What even makes this more troublesome, in the 1840 census of White County, there are 5 other Burrell families. Silas Burrell aged 50-59, Ward Burrell aged 30-39, David Burrell aged 40-49, Joseph Burrell aged 20-29, Hannah Burrell age 40-49. Any one of these families could be the parents of Cordelia and/or Matilda (BURRELL).

Since Cordelia didn't marry Richard Greer until 1 June 1851 in White County, Illinois, then Cordelia should be in the 1850 census either as a single or previously married. I found a Cordelia Brown had married a Martin Brown in Gallatin County in 1850, they were living in White County by the census date. But we find Martin and Cordelia in the 1860 census so we know this Cordelia is not our Cordelia. But, Cordelia's marriage date and name to Richard Greer definately is recorded as Burrell.]

John Robert Burrell was born in 13th Civil District, White, Illinois, United States in 1847.

1847-1850 Death of spouse; Nancy (SHORT) Burrell

Nancy (SHORT) Burrell died in 13th Civil District, White, Illinois, United States after the birth of son; John in 1847 and before 24 March 1850 husband's marriage. Checking the death certificates for her children might verify the name.

[Not being able to determine the age of Nancy (SHORT) Burrell presents a problem. Looking at the 1840 census we find two females age 15-19 and age 50-59. I dismiss the female 15-19 because daughter; Cordelia was supposedly born in 1830 making her 10 years of age and her mother would not be 5-9 years old when Cordelia was born. However, since Peter was age 38 having a wife 50-59 would have been out of the ordinary.

Also, what distrubs me in the 1840 census, there is no room for daughter; Matilda (BURRELL) supposedly born in 1838 according to the 1850 census. What even makes this more troublesome, in the 1840 census of White County, there are 5 other Burrell families. Silas Burrell aged 50-59, Ward Burrell aged 30-39, David Burrell aged 40-49, Joseph Burrell aged 20-29, Hannah Burrell age 40-49. Any one of these families could be the parents of Cordelia and/or Matilda (BURRELL).

Since Cordelia didn't marry Richard Greer until 1 June 1851 in White County, Illinois, then Cordelia should be in the 1850 census either as a single or previously married. I found a Cordelia Brown had married a Martin Brown in Gallatin County in 1850, they were living in White County by the census date. But we find Martin and Cordelia in the 1860 census so we know this Cordelia is not our Cordelia. But, Cordelia's marriage date and name to Richard Greer definately is recorded as

Dear Bro. Wiscombe, I have been researching the Greer family for a client (non-member) and found that you had entered data into NFS. I have come to several conclusions about Mary Malinda (**HOSKINS**) Greer's parents and was wondering if you would like me to forward my notes to you so you can do the temple work for them? You have done an excellent job in your research and since my client is a non-member, if you are interested I would rather you do their temple work than me. My interest in the Greer family follows Richard Melvin & Mary Hulda Alpha Armeda (**WALLER**) Greer's son; Seymour Richard & Gladys (**MOONEY**) Greer family. Their daughter; Anita May (**GREER**) married Ralph Alexander Pratt Jr. my 2nd cousin once removed. I don't know what condition your health is in, but I would prefer, if you are a direct family member, that you or your family do the temple work. Otherwise, I can send it in to any temple, but it appears you are a direct family member. Let me know. I am a High Priest in the Bradenton 2nd Ward, Bradenton Stake, Bradenton, Manatee, Florida. Thank you. Floyd Thomas Pratt F.H.C., M.A.G.I. 11 August 2010

I am sure we can do the temple work. I am forwarding this e-mail to my wife. She is the one related to the Greer family. She should respond to you. Thank you for thinking of us. Richard Wiscombe.

Sorry, I accidentally sent the email before I finished writing.
Brother Pratt, I would be very interested in your research. You say you're interested in Richard Melvin Greer (L4Q1-W53). His sister, Elizabeth Greer (KLYS-TKW) is my Great Great Grandmother. Their father is Richard Greer (L4Q1-WM7), I'm very much interested in Richard Greer's wife Matilda Burrell and her parents. I know Peter Smith Burrell married a Miss Short the first time and all of his children are from her. Do you know anything about that side of the family? That would be Richard Melvin Greer's mother.
Sincerely, Susan Wiscombe

Susan, so glad you folks are still around. You never know when you email people in NFS if they are still active or breathing. I have not researched Nancy (**SHORT**)'s family yet. Tonight I just finished Gladys M. (**MOONEY**)'s line. She married Seymour Richard Greer. I'm still putting in the pieces. They moved from Tennessee to Arkansas to Missouri and back to Arkansas so it is hard to track them. It's 1:50am now so tomorrow I will send you a .pdf file on what I have on the Greer family. Do you know anything about Seymour Richard Greer's family? I research family lines for clients, have been for 35 years, have written 33 books. I charge them \$20 for their books as a .pdf file on cd. That handles the cd and packaging and mail so effectively they are getting 35 years of research for free. There is no way they can compensate me for 35 years of research. My tree on ancestry.com exceeds 27,000 names. When I was looking for my Pratts I had to research allied lines to find out who they weren't. That's how the tree got so big. I specialize in mid-Missouri records, Crawford, Washington and Franklin Counties, but due to the data hitting the internet I am able to branch all over. Even finished a 266 page book covering 33 generations for a woman in England last week.

You can not understand what it's like to run across LDS fellow researchers. I do so much for non-

Ancestors of Anita May (GREER)

members that after I finish I have to go into NFS and update the records. I wish they would do their own work...even active members procrastinate. I have over 1000 people waiting in the hopper for temples to do their work.

Mary Malinda (**HOSKINS**) daughter of Robert Coleman & Margaret Spencer (**VAUGHT**) Hoskins. My notes will explain how I arrived at that conclusion, I'm sure you will agree. So, the whole Hoskins line should open up with James & Rebecca (**SMITH**) from Virginia. That's as far as I am going on that line, but I'm sure you will find much more data. I will take a look at Nancy (**SHORT**) and see if I can find where they got that family name. For church members, I charge nothing, one of my callings is Family History Consultant (F.H.C.) so I work for blessings. I think I can email the Greer file because it won't be too big. But on these 200+ page books on .pdf the files have to go on a cd my email won't take really large files. I'll write tomorrow. Floyd

Susan, I ran a book on the ancestors of Richard Melvin Greer and then combined it with the ancestors of

Matilda (**HOSKINS**) Greer. In the beginning of the book is all about the Greer family. At the end are my

notes on the Hoskins family. Let me know if you have info to fill the holes. Floyd Thomas Pratt

Thank you for the information. Can I ask, where did you find Peter Smith Burrell's first wife's name? I found her last name, **SHORT**, on the death record of her last child, John Robert Burrell born in 1845. The first name was missing or maybe I should say not filled in. The person who gave the information for the death record was the daughter of John Robert Burrell, Mary E. Burrell born in 1882 and who married Will Duncan.

Sincerely, Susan Wiscombe

Susan, Nancy (**SHORT**) was found on ancestry.com, which you realize is very unreliable.

If I were you, I would do a marriage record search for Peter Smith Burrell and her marriage record. (Nancy, Nannie,)

I would look for about 1825-1830 first checking with New York records.

As you can see in my notes, their daughter; Cordelia (**BURRELL**) really gave me trouble. Not being able

to determine where she was born does not give me a starting point for her parents marriage record.

Too many times, parents get married in an obscure state that we would never think to look for their marriage record.

I'm afraid this could be one of those instances.

Peter Smith (Smith named after his mother's maiden name) Burrell kept naming New York as his birth state.

His parents were married 1 January 1788 in New York, their record needs to be verified and the county ascertained.

Once the county has been found then I would look in that county for Peter and Nancy's record.

Also track John Burrell who died on 13 April 1811 in Cooperstown, Otsego, New York, United States (internet source), his widow; Susannah (**SMITH**) Burrell should be in the 1820 New York census, maybe with a son aged 18, which could be Peter.

If you find her and Peter, then look for a Short family in the same area in close proximity. Nancy

Ancestors of Anita May (GREER)

should have been born from 1800-1810.

Usually the husband is older. When I found Peter in the 1840 census there were no Short families in White County, Illinois.

Maybe the woman that is 50-59 was his mother, Susannah, but someone put her birthdate exactly as 16 March 1769 in Chatham, Columbia, New York, USA.

By 1840 she should have been in the 71-80 age bracket.

Anyway, New York is where I would look for Peter and Nancy's marriage record first. Are you aware of the following websites?

[<http://www.sos.mo.gov/archives/resources/deathcertificates/>](http://www.sos.mo.gov/archives/resources/deathcertificates/)

[<http://www.cyberdriveillinois.com/departments/archives/databases.html>](http://www.cyberdriveillinois.com/departments/archives/databases.html)

[<http://www.cyberdriveillinois.com/departments/archives/data_lan.html>](http://www.cyberdriveillinois.com/departments/archives/data_lan.html)

[<http://www.myillinoisgenealogy.com/il-records-land.html>](http://www.myillinoisgenealogy.com/il-records-land.html)

[<http://white.ilgenweb.net/>](http://white.ilgenweb.net/)

I was not able to locate Peter in the 1830 census.

Checking the White County, Illinois deed records would indicate when Peter bought his first piece of property.

This would give an approximate arrival date from New York or where ever he was before he got to Illinois.

Also with a property location and date would pinpoint the birth location of the children and give you a more approximate place to look to him in the 1830 census.

In other words, if he arrived in White County after 1830 then check in New York 1830 census, if he arrived in White County before 1830, then take a closer look at White County, Illinois 1830 census.

As far as sealing Peter and Nancy, I would, if I were you, check NFS and see if someone worked the back door and listed a Short family with a daughter Nancy married a Burrell, and don't forget all the spelling variables.

I don't know how long you have been active in Family History research but in my 35 years, I have noticed the Lord opens doors when you make an effort

supported with prayer, and if it be you, and it is you that has a direct line interest in this family, then he will help you, help them.

Remember your ancestors are also petitioning him for assistance and miracles happen and often...in this righteous endeavor.

Keep in touch, on the White County website, see if someone will look-up the Burrell-Short deed records. I have found look-ups to be extremely helpful.

All I can do at this time is to point you in the right direction. You and the Lord must take it from here. Bro. Pratt

Susan, when you look at the death records of Burrells on the Illinois website I sent you, be sure to check the marriage records for Peter and Nancy daughters. Then track them through the census records until you find approximately when they died. Order or find their death certificates if they made it past 1900 to verify Nancy's name. I'm sure it's on one of those death certificates. Either that or whoever posted Nancy (**SHORT**) as Peter's wife found their marriage record. Floyd

A Little Something About Your Author.....

Floyd Thomas Pratt F.H.C., M.A.G.I.

At the age of 19, Mr. Pratt embarked on a career in law enforcement. This experience gave him training in detective and investigative skills. Little did Mr. Pratt know, how useful these skills would be in the field of genealogy.

Floyd started his family research career in 1975 after becoming a member of the Church of Jesus Christ of Latter Day Saints. His first calling as a new member was to serve in the newly created genealogical department or known today as the Family History Center in the Springfield, Missouri ward. This two-year calling gave Mr. Pratt a tremendous amount of experience helping others to research their families.

In fact, he felt family research came easy and required little effort on his part. In reality, years of reading and studying increased his expertise and he made it look easy to others. Over the course of several years, Mr. Pratt was asked by his church to instruct several family history courses. This experience established a deep profound love for family and ancestors. It was not uncommon for Mr. Pratt to spend 4 to 8 hours a day researching and compiling family histories in addition to his duties, as an entrepreneur in the insurance business.

The first major achievement for Mr. Pratt was a breakthrough on his Pratt family back to the early 1800's. Due to confusion with Pratt ancestors and not satisfied with just the direct line research, Mr. Pratt branched out to research all connected lines and allied families.

This dedication led to 50,000 individuals in his database and has achieved expert status for Mr. Pratt on the families of middle and eastern Missouri, eastern and western Tennessee and central North Carolina.

Concerning Mr. Pratt's style of research, he is a strong supporter of the "hands on" approach. When he took family vacations, they usually went to libraries, cemeteries, courthouses, National Archive centers, and visited family members in various states. He attended family reunions and obtained his material from the actual sources when possible.

Being a researcher of the highest degree, in 1991, Mr. Pratt created  **Pratt Publications**.

He began to offer to the public, a series of books titled, Pratt Progenitor Papers. This series of volumes are a collection of legal documents, stories, pictures and historical presentations concerning the families of Missouri, Tennessee and North Carolina.

The first three Volumes were released to the public in 1991 and were issued to 18 different libraries including the Library of Congress and the St. Louis Public Library. The next 11 volumes were sent to the Salt Lake Genealogical Library with 60 volumes scheduled for publication.

In 1996, Mr. Pratt created the  **Genealogical Institute** to further the education of serious researchers.

A Little Something About Your Author.....

The **Genealogical Institute** offers a series of educational materials to teach and instruct the novice as well as advanced researchers, procedures Mr. Pratt has tried and tested to be of great value in family history research. These courses offer “a hands on” curriculum designed to instruct in investigative, deductive reasoning and logical techniques for tracking your family history. Many have found a treasure chest of knowledge when undertaking these courses.

Mr. Pratt has taken the hobby of genealogy and has enhanced it into a science. Heavy on instructions concerning documentation, research procedures, alternative sources and common public records, these courses are valuable tools for the family history researcher. Mr. Pratt has been informed by researchers his material found in his publications are recorded as source validation for such organizations as the Sons of the American Revolution (SAR) and the Daughters of the American Revolution (DAR).

Upon completion of the educational courses from the **Genealogical Institute**, the graduate is awarded the *Master Accreditation* of the *Genealogical Institute*. (*M.A.G.I.*) Written in easy to read format with detailed explanations concerning various subjects of interest to family history researchers.

Mr. Pratt's ability in family history research has amazed many experienced researchers. When Mr. Pratt is asked for help concerning their “brick wall” in their family research, his quick wit and logical mind rapid fires instructions and procedures so fast they cannot write the material quickly enough. Little do they realize, this knowledge has been acquired over 40 years of research.

In June of 2000, Mr. Pratt undertook a new and unprecedented task. Outside of Washington, Saint John's Township, Franklin County, Missouri is an old cemetery called the Johnson-Caldwell Cemetery aka; misnamed the McAllister Cemetery. This cemetery has many pioneer heroes and ancestors of various descendants from that region. Some of the inhabitants were born in the 1750's and arrived in the Missouri Territory shortly after the 1803 Louisiana Purchase.

Mr. Pratt recorded all the information off of the headstones including every person in the cemetery and researched each individual related to Mr. Pratt or not. 1000 man-hours and two years later, he published the book “**JOHNSON-CALDWELL CEMETERY OF FRANKLIN COUNTY, MISSOURI**”©.

Obtaining newspapers, legal documents, talking to ancestors and researching various sources for any and all information concerning the history of the cemetery and the inhabitants produced this master text.

What makes this book unique is based on several factors. First, it is the only book to report on each inhabitant, their birth and activities throughout their life until their death, including their ancestors, spouses and children. Second, this book contains a unique index, listing the individual and their father's name if known. This is extremely helpful when several individuals have the same given name.

Upon examination, professional researchers have hailed this body of work as a masterpiece and a standard in which all future research should be based. No one has ever produced a body of work as unique and professional as this publication.

As the years moved on, Mr. Pratt became concerned about his 40 years of hard research work of various family histories. After a serious heart attack in 2012, Mr. Pratt decided to post his collective bodies of work on a website making them available to all interested researchers without compensation.

The **PPP** are light on speculation and assumptions, heavy on factual documentation offering research insights and suggestions.

ANCESTRAL FAMILY HISTORY OF... This book showcases a selected individual usually a living descendant, detailing their direct line ancestors as far as the research has been completed.
